Endless writing and projection surface

Writing and projection on a single large whiteboard at the ideal writing height. These connectable whiteboards have the exact format for an 88-inch or 100-inch projection surface with space for a touch sensor. Whole and half panels can be used to vary the width. Customisation is also one of the options so that the whiteboard can fit exactly between 2 walls.
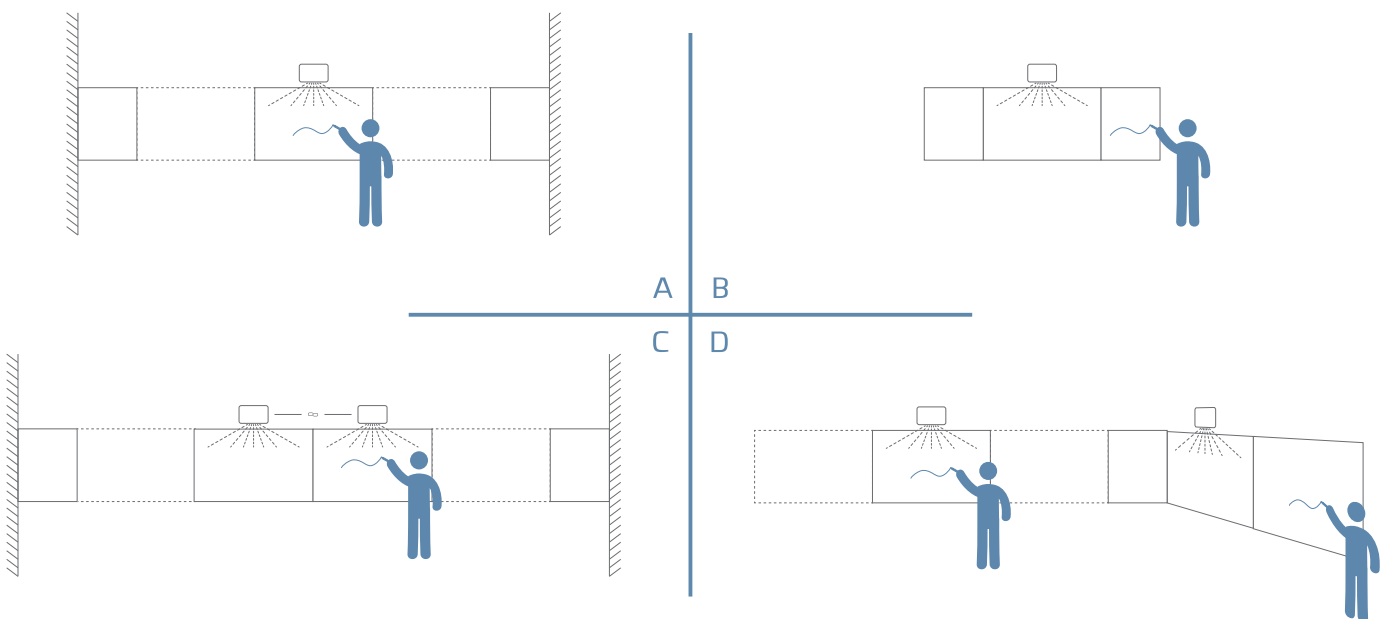

The concept

- Writing and projecting on one single surface
- Modular extendable
- 2 different heights for 88 or 100 inch projection. Space for the touch sensor of the projector is included in the 100 inch format.
- 2 different widths + custom size
- A surface of white enamel with a 25 year guarantee on writing and erasing. In combination with a short throw projector, annoying hotspots are minimalised

Sizes

Full panel

Half a panel

Custom made panel

Full panel: 148, 118, 216, 192

Half a panel: 148, 118, 108, 94.5

Custom made panel: 148, 118

General

| Article number	Size (W x H)	Projection ratio - diagonal	Gross weight	Nett weight
16001.030	1480 x 2160 mm	Touch & pen interactive 16:10 - 100 inch	63	48
16001.031	1480 x 1080 mm	Writing board 100 inch - 1/2 panel	27	24
16001.032	1180 x 1890 mm	Pen interactive 16:10 - 88 inch	36	33
16001.033	1180 x 945 mm	Writin board 100 inch - 1/2 panel	20	17
16001.996	Custom panel	Writing/projection board	T.B.D.	T.B.D.

Technical

Characteristics:	Magnetic and dry erasable Suitable for very intensive use
Mounting:	Magnetic mounting
Guarantee:	Board: 2 year guarantee
Guarantee surface:	25 year guarantee on writing and dry erasability

Construction

Chameleon panel

1. Surface:	White enamel steel of 0.4 mm thick (Indoor Air Quality Certified to SCS-EC10.3-2014 v4.0)
2. Carrier:	MDF 9 mm (FSC Mix Credit)
3. Backing:	0,4 mm galvanised steel sheet
4. Finishing:	Whiet lacquered edges
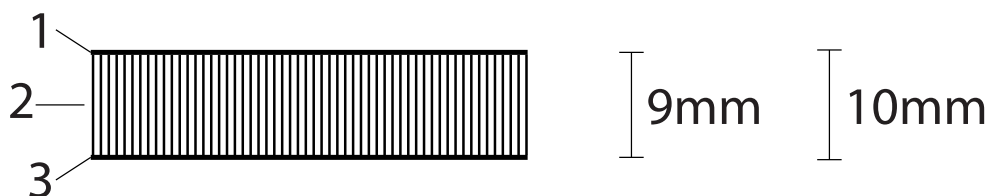

Magnetic mounting plate

5. Magnetic sheet:	Anisotropic magnet, 1,5 mm thick
6. Adhesive layer:	Double sided tape
7. Mounitng plate:	Gavlanised steel sheet, 3 mm thick, with holes for srews

Galvanised steel — 3 mm
Double sided adhesive foil — 0,004 mm
Anisotropic magnet — 1,5 mm
Galvanised steel —

MDF — 9 mm   10 mm
