Chameleon Modular Writing & Acoustics

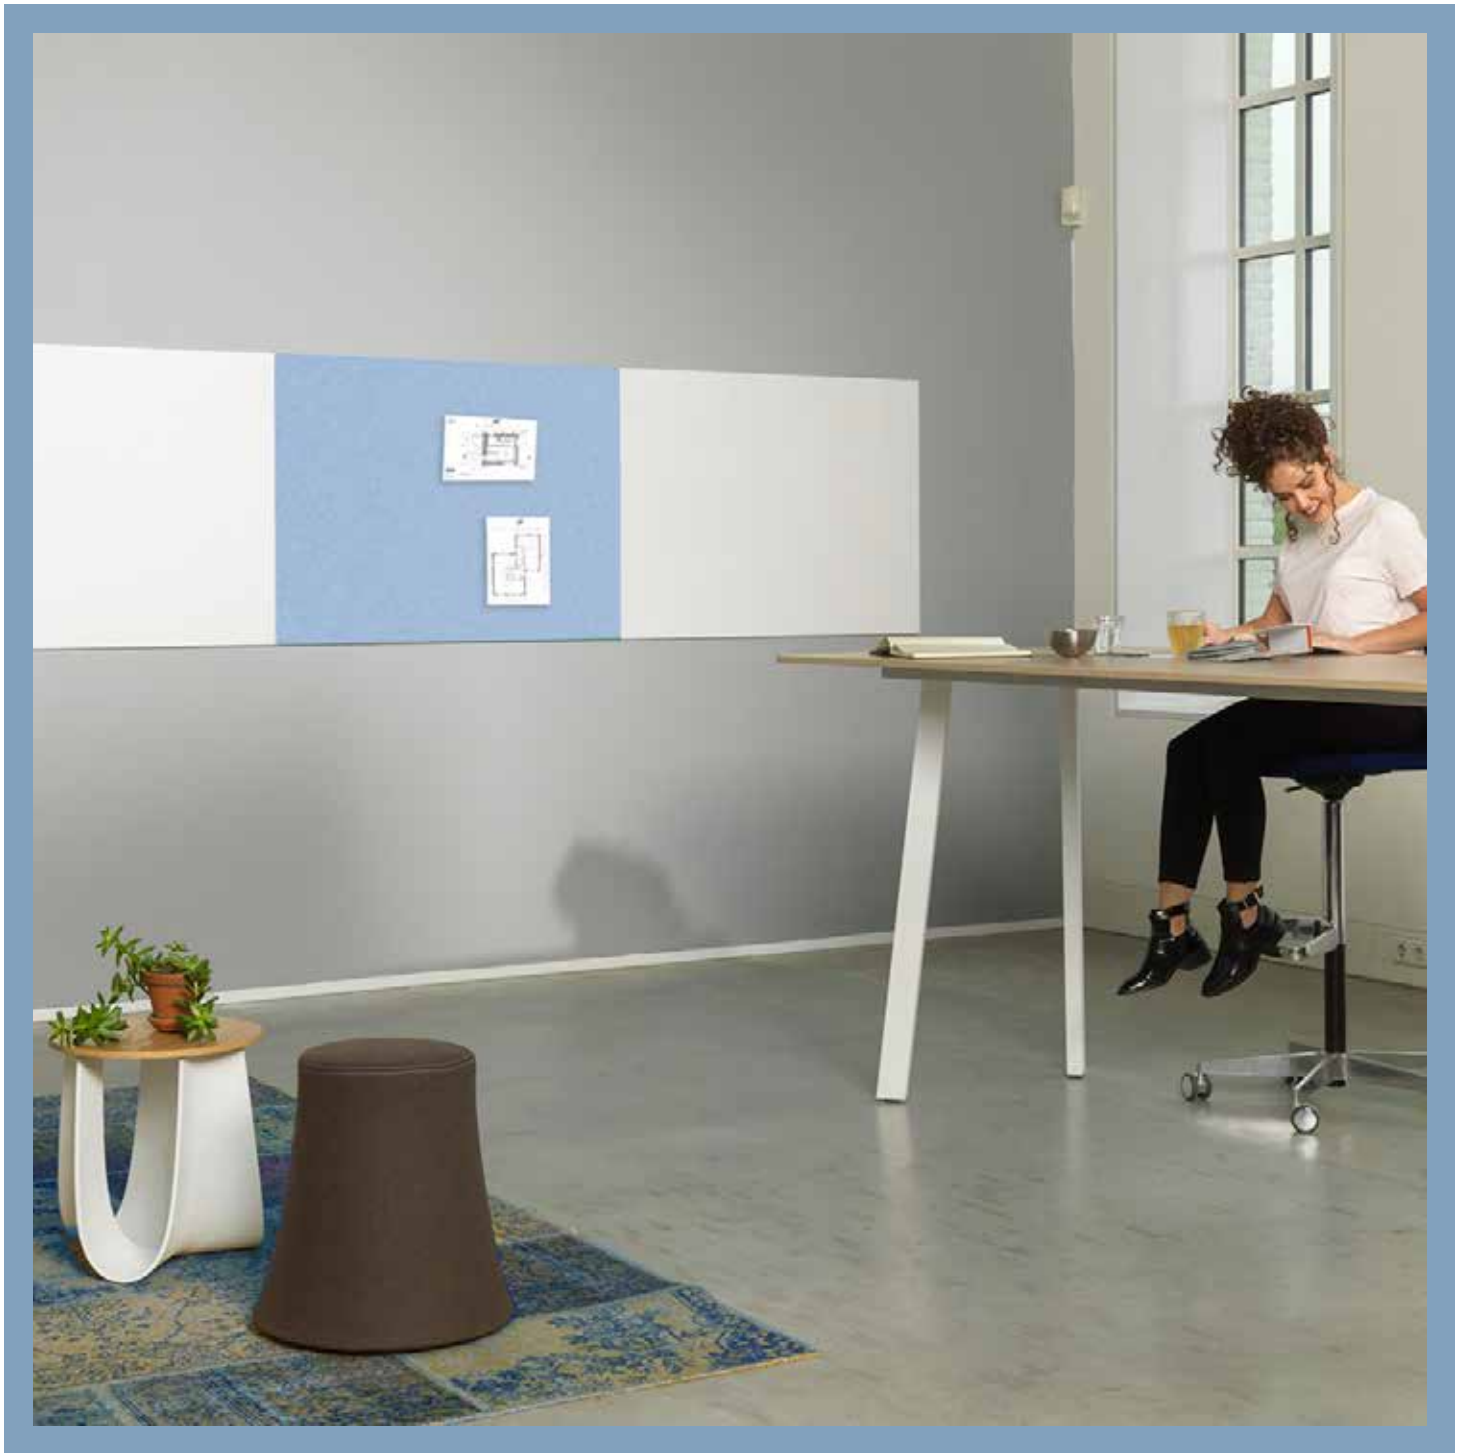

Planning, brainstorming, presenting...

Writing, pinning and improved acoustics! This multi-functional work wall combines multiple applications in one single solution.

Chameleon work walls are made for daily intensive use on different moments. Someone can use it for managing a list of tasks while someone else works on an extensive project planning. Using it for sharing creative ideas with the rest of the organisation is done by yet another person. This can be done by writing them or by pinning them onto it.
